### The Days of Tight Belts Are Over

### Cling-Surface

"CLING-SURFACE" IS A BELT filler, which produces a clean, clinging surface on the belt after it has penetrated the belt, and it is a belt preservative, making and keeping the leather, cotton or rope flexible and elastic, vastly increasing its life. It also acts perfectly on rubber belts.

One-third more power is transmitted by its use, or in other words, a belt two-thirds as large will transmit the power if "Cling-Surface" is used.

Send for a sample ten-pound tin.

Price 50c per lb.

### LITTLE GIANT FIRE EXTINGUISHER

RED IN THE BLOOD is the sign of life, of vital force of the force that life has, of the force that life is.

When the red is lacking, life is weak, the spirits are weak, the body is weak.

Scott's emulsion of cod-liver oil puts red in the blood and life in the body.

It's the food you can turn into muscle and bone and nerve. It gives you the mastery over your usual food—you want that. What is life worth if you've got to keep dosing yourself as an invalid?

Red in the blood! get red in the blood!

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York.

## AN ALLEGED HAWAIIAN CURE EXPLOITED IN NEW YORK STATE

The Advertiser has received the following letter:

"Enclosed I beg to hand you a clipping from one of the Mainland papers, which was sent to me by a friend who wishes to know from me whether this so-called 'Mi-o-na' is a fraud or not. 'Perhaps you will be able to reveal the facts in the interest of the public.'"

The clipping in the form of an advertisement is as follows:

### A CERTAIN CURE FOR DYSPEPSIA

Found in Our New Possessions, the Hawaiian Islands.

MI-O-NA, (The Active Principle of the Taro Plant.)

IT CREATES A PERFECT DIGESTION.

When the digestive organs are in a healthy condition, these organs extract from the food all that goes to make good, rich blood, firm muscles, steady nerves, and a sound, healthy body. When irritated, congested, or inflamed, they fail to do their work properly, and loss of flesh, shattered nerves, indigestion, sour stomach, flatulency and heart-burn follow.

Herein lies the cause of the failure of all remedies for dyspepsia heretofore placed on the market. Without a single exception they have been gotten up to afford relief by acting on the food in the stomach instead of curing the digestive organs themselves and making them do the work which nature intended.

Drugs will not and cannot digest food. They only decompose it, and decomposed food will not make pure blood or give strength and health to the body. The irritated stomach and bowels may be relieved for a time by such remedies, but they shortly lose their effect and the patient soon finds himself in a worse condition than before.

MI-O-NA, THE NEW CURE,

is called a certainty in medicine, because it does not work on the food at all, but cures the diseased organs themselves. It has an extraordinary effect upon the lining of the mucus membrane of the alimentary canal. It stops irritation; removes congestion; allays inflammation and absolutely prevents fermentation. Its active principles cause the digestive fluids to flow in natural abundance; the lymphatics are kept up to their proper activity, and thus is created a perfect digestion.

MI-O-NA is obtained from the Taro, a plant found in the Hawaiian Islands. It grows in the water and requires a whole year to mature.

The harmony between height, weight and perfect health is found nowhere in the same proportion as in Hawaii, where this plant is used daily as a vegetable, yet there is no thin, debilitated dyspeptic but what can be plump, rosy and robust; no case of obesity but that can get rid of this accumulation if they will only use MI-O-NA tablets.

Below is a table of standard weight and height. Whenever your weight

falls below or rises above the standard, it is due to imperfect digestion or mal-assimilation. Compare your height and weight with this table and govern yourself accordingly.

An individual whose height is	
5 feet 1 inch should weigh.....	120 lbs
5 feet 2 inches should weigh.....	125 lbs
5 feet 3 inches should weigh.....	130 lbs
5 feet 4 inches should weigh.....	135 lbs
5 feet 5 inches should weigh.....	140 lbs
5 feet 6 inches should weigh.....	145 lbs
5 feet 7 inches should weigh.....	150 lbs
5 feet 8 inches should weigh.....	155 lbs
5 feet 9 inches should weigh.....	160 lbs
5 feet 10 inches should weigh.....	165 lbs
6 feet	170 lbs

With each package of MI-O-NA tablets are full directions for their use and a morning regime which is worth more than money to you.

MI-O-NA is sold by all druggists, price 50c, and a trial sent free to any one who will write for the same to THE R. T. BOOTH CO., Ithaca, N. Y.

The Advertiser cannot find the remedy in this market and feels assured that no taro enters into its composition. Taro is so scarce and in such demand among the Hawaiians that there is little or none left for export, assuming that the tuber could stand export at all.

The R. T. Booth Co., at Ithaca, N. Y., may or may not be a responsible firm. Over twenty-five years ago there was a barber in Ithaca named Richard T. Booth, who became a conspicuous foreign worker in the Murphy Blue Ribbon crusade. He went to Australia, stopping at Honolulu en route, and had a run of popularity in the colonies, where he secured thousands of signatures to the Murphy pledge. Later he repeated his missionary triumphs in London. When the Murphy excitement began to wane, he put a remedy called "Australian Air" on the market. If a man with a bad cold breathed in a little of this air, which carried a strong smell of eucalyptus, he felt better. Booth unloaded the medicine on a syndicate and afterwards went to law with the buyers. When Francis Murphy was in Honolulu last he spoke charitably of Booth but seemed to regret the general tone of his business life. Whether this Booth and the one who gives his name to the R. T. Booth Co., of Ithaca, N. Y., are the same the Advertiser cannot say.

If "Mi-o-na" were made of taro it ought to be good for indigestion, for taro is the most digestible food in the world. It tastes like bill poster's paste nine days old and was formerly used in these islands for the same purposes as paste when not required for food. Reduced to tablets it would probably keep good about as long as yeast. As for taro or anything like taro being a remedy for obesity it is no more so than are bread and gravy. It puts on flesh faster than beer and pumpnickel can.

Almost the only thing in the advertisement this paper can recommend in full confidence is the comparative table of height and weight. That is all right according to the authorities.

be too much for the planters to pay for the bunnies. You might safely have gone further, sir. If there be really rabbits here, and supposing that they could not be got rid of in any other way, then I say the sum of \$10,000 a pair would not be too high a price for them now, and I believe I know where of I speak. Yours, etc.

EX-AUSTRALIAN.

Honolulu, August 19, 1901.
